Cold Spring, MN 56320

Dear Mr. & Mrs. Mehr,

Enclosed please find a copy of the build card for your 1934 DeSoto Airflow. Unfortunately, the original selling dealer was illegible, but was located in San Francisco, CA.

At this time, we are unable to offer a full decoding of your build card due to projects and limited staff within the archives.

Please note, we cannot reprint build cards any differently. The build cards were put on microfilm many years before they arrived to the archives. Everything possible has been done to provide you with the best copy from our files. We cannot make the build cards any larger or clearer, than what has been provided to you. I apologize for the inconvenience this may have caused you.

I hope that you find this information useful.

Regards,
