DESCRIPTION	AMOUNT
1960 Cadillac repair invoice	\$ =
Power seat inoperable. Disassembled and rebuilt the switch. All switch controls work	485.00
except the up/down on the rear part of the switch. Second issue was the solenoid/transmissio	
pack for the power seat. Removed, disassembled, rebuilt and reinstalled	
Fixed seat buttons	100.00
Fixed DR side power window. The rear section of glass guide was sitting at the bottom of	775.00
the door. The top attachment point was still bolted to the car, but it was fatigued away from	
the bracket. Removed all panels and door glass and welded the top attachment point back	
on in original location.Relined the door channel with a smooth window guide. Reassembled	
and adjusted. Door glass works well and does not rattle	
Spark plugs and adjust the dwell to 31/32	100.00
Added \$30 of gas	30.00
TOTAL	\$ 1,490.00
